

The 5th International Symposium on Cosmic Rays and Astrophysics (ISCRA-2025)

Tuesday 24 June 2025

Overview Talks - B-100 (10:10-11:30)

time	[id] title	presenter
10:10	[19] Highlights of Recent Progress in UHE Gamma-Ray Astronomy with LHAASO	LIU, Ruoyu
10:40	[95] Progress of Giant Radio Array for Neutrino Detection (GRAND)	ZHANG, Yi
11:10	[76] Instrumentation of the GRAPES-3 Muon Telescope	RAMESH, K

Wednesday 25 June 2025

Overview Talks - Б-100 (14:30-16:30)

time	[id] title	presenter
14:30	[63] The Baikal-GVD Neutrino Telescope: Current Status and Selected Results	DZHILKIBAEV, Zhan-Arys
14:50	[16] Hybrid complex of TAIGA-1 - current status and development prospects.	BUDNEV, Nikolay
15:10	[23] The Yakutsk EAS Array: Advancing Cosmic Ray Research Through Modernization and Future Development	KSENOFONTOV, Leonid
15:30	[26] Tien Shan Experimental Complex: Current Status, New Results, and Development Prospects	Dr RYABOV, Vladimir
15:50	[21] Исследование астрофизических источников космического излучения сверхвысоких энергий на комплексе установок "Ковер-3"	PETKOV, Valeriy
16:10	[59] Prospects of the development of the Experimental Complex NEVOD	Dr KHOKHLOV, Semyon

Overview Talks - Б-100 (17:00-18:00)

time	[id] title	presenter
17:00	[67] Expansion Possibilities of the Baikal-GVD Neutrino Telescope	AYNUTDINOV, Vladimir
17:20	[48] Проект астрофизического комплекса TAIGA-100	KUZMICHEV, Leonid
17:40	[33] The orbital telescope system ERA: Extreme Relativistic Astrophysics	Dr KLIMOV, Pavel
