

# The 4th International Symposium on Cosmic Rays and Astrophysics (ISCRA-2023)

## Tuesday 27 June 2023

### Overview Talks - B-100 (10:30-11:30)

time	[id] title	presenter
10:30	[56] Neutrino telescope Baikal-GVD: status and results	DZHILKIBAEV, Zhan-Arys
11:00	[53] 30 years of cosmic ray research in the Tunka Valley	BUDNEV, Nikolay

### Overview Talks - B-100 (12:00-13:00)

time	[id] title	presenter
12:00	[57] Cosmic rays data for Space Weather forecasting	ABUNINA, Maria
12:30	[46] Overview on EAS neutrons: recording and simulations	STENKIN, Yuri

# Wednesday 28 June 2023

## Overview Talks - B-100 (10:00-11:30)

time	[id] title	presenter
10:00	[78] Cosmic rays, their role in atmospheric phenomena	STOZHKOVA, Yuri
10:30	[79] A new approach to determination of the cosmic ray composition	Prof. SHAULOV, Sergey
11:00	[80] Cosmic ray sources in the Galaxy	BYKOV, Andrey
